Costs Less Than Nothing

Because it saves more than its cost in Oil alone, and then it saves

MANY TIMES ITS COST IN Gas, Oil, Wear and Repairs

Increases Gas Mileage and Makes Oil Last Twice As Long.

PYROIL is on sale by the following Elba Dealers:

Elba Oil Co., Whitman Drug Co., Elba Drug Co. and Peoples Drug Store

WHAT IS PYROIL? WHAT DOES IT DO?

PYROIL is a revolutionary new heat- and wear-resisting lubricant that gives "new life" to ALL motors and machinery. It is NOT a substitute for regular lubricants. It is simply ADDED in small quantity to the crankcase filling and to the gasoline or fuel.

PYROIL builds lubrication INTO the metal. It does what oil alone cannot do. It—(remember these are PROVEN FACTS)—reduces noise; reduces wear; increases power; saves oil; saves gas; frees valves; seals rings-gives thousands of "silky" noiseless, trouble-free miles without repair bills-mabes your motor better every mile you ride—is guaranteed absolutely non-injurious. PYROIL saves more than its cost in the saving of lubricating oil alone.

Thus, in reality, it actually costs its user nothing! Put one oz. Pyroil A to each 5 gals. of gas in tank and 2 ozs. of Pyroil B to each qt. of oil in your crankcase and forget all of your motor troubles.

DORSEY BROTHERS, Incorporated

ELBA, ALABAMA

This is the time of year the children call 'Kite Flying Time' and which is enjoyed by hundreds of children, but there is a certain amount of danger in this sport if not carried on in the proper places. It is exceedingly dangerous to fly kites where there is any chance of the kite or kite strings coming in contact with the electric wires, especially is this true if the string should be wet or a fine wire be used for a string, as these are conductors of electricity.

We therefore appeal to the parents, to see that the children are properly informed as to this danger, and the flying of kites carried on in localities where there are no electric wires. The cooperation of the public is earnestly solicited and appreciated.

PYROIL

Costs Less Than Nothing

Because it saves more than its cost in Oil alone, and then it saves

MANY TIMES ITS COST IN Gas, Oil, Wear and Repairs

Increases Gas Mileage and Makes Oil Last Twice As Long.

PYROIL is on sale by the following Elba Dealers:

Elba Oil Co., Whitman Drug Co., Elba Drug Co. and Peoples Drug Store

WHAT IS PYROIL? WHAT DOES IT DO?

PYROIL is a revolutionary new heat- and wear-resisting lubricant that gives "new life" to ALL motors and machinery. It is NOT a substitute for regular lubricants. It is simply ADDED in small quantity to the crankcase filling

PYROIL builds lubrication INTO the metal. It does what oil alone cannot do. It—(remember these are PROVEN FACTS)—reduces noise; reduces wear; increases power; saves oil; saves gas; frees valves; seals rings-gives thousands of "silky" noiseless, trouble-free miles without repair bills-mabes your motor better every mile you ride—is guaranteed absolutely non-injurious. PYROIL saves more than its cost in the saving of lubricating oil alone.

Thus, in reality, it actually costs its user nothing! Put one oz. Pyroil A to each 5 gals. of gas in tank and

2 ozs. of Pyroil B to each qt. of oil in your crankcase and forget all of your motor troubles.

Returned The end of the bank holiday last week and he reopening of National banks and those connected with the Federal Reserve System under direct

authority from the Secretary of the Treasury, and State banks under authority from the State Banking Department should bring a new note of confidence o those who have been skeptical about the soundness of these institutions. The temporary closing of all of the banks of the United States under orders from the President, as we see it, was merely a step in the direction of ascertaining the exact condition of these financial institutions so that the Government might take a hand in the safe conduct of their business in the future. Congress passsed emergency measures and gave to the President and the Secretary of the Treasury such powers as are necessary to put the panking business on 100 per cent basis. It is gratifying to note that practically every bank in this section of the State opened last week for normal operations. People need have no fear or the safety of funds deposited in banks now, as the ones now operating have been investigated and ound to be 100 per cent safe and are licensed by the government, both State and National. Those who in the past have not trusted their funds to the banks but have kept it buried or hidden between mattresses or in some other place

about the home, should immediately take this money from hiding and deposit it in one of these 100 per cent banks. President Roosevelt's proclamation against hoarding gold or currency is still in force' and any person thus holding their money is subject to a fine and imprisonment for doing so. Inasmuch as the manks that are now open are considered 100 per cent sound, it seems that those who have been using Postal Savings would feel it their duty to withdraw these funds and place them in one of these sound banks where they will be used for the benefit of the commercial life of the community All loans made by banks are a direct help to merchants, professional men and corporations in the territory served by that bank. Money deposited in Postal Savings are taken out of the commercial life of the community, and for that reason these funds should now be placed into the channel where they will help in bringing back normal business conditions.

The first major problem of the President's "new deal" was the banking situation. He has succeeded in putting these institutions on a safe and sound basis, and the people of the country can do their party only by showing their confidence and

The program was not only enjoyed at approximately midnight, or o'clock.

Sallie has all her plants ready tributing parts were Mrs. W. F. to put out and she has had me at the time of the death of the home except for the home except fo Quite a number of Elba citizens, with the memory of March, 1929, were excited when the rain came were excited when the rain came the flames had been during the flames had been bridge. Later a number of young able to stand his hand at any time. Was rounded and the flames had been bridge. Later a number of young able to stand his hand at any time. Was rounded and she has had me at tax sufficient to operate the Government and the flamer will be horse lot fertilizer. Sallie will not have bridge. Later a number of young able to stand his hand at any time. Believe me, a new deal of this kind. lown in such torrents Sunday af- No motive for the slaying could assisted by Mrs. P. G. Mathis, serv- could be done about the water that tilizer or we go to the woods for would save the farmer, stabi ernoon and night. Many could see be advanced by officers investigated a tempting salad course with collects and stands on the main rotten leaves. Sallie says horse the Government and would make in their imagination themselves and all they possessed floating down Pea River, and we have heard some lost of Green Bay, in Covington gan and Sam Sawyer.

an iced drink. Honor guests of streets and sidewalks of our town after a big rain, such as we had both bed or cotton but she will not such as the man pay who has and spends the club were Mesdames Paul Morgan and Sam Sawyer.

In my opinion, this Sunday. It is terrible. In some have it in her garden. I've found would be a real relief, and it would places, the people can't even get out by experience that Sallie is last a long time. If this country with their best, others moved their line in Geneva County, about 30 mrs. Cora Saunders and daughfurniture into the attic. Swarms of people watched the rise of Pea River and White Water until late River and Water River and White Water until late River and Water River and Water River and Water River and Water River River and Water River River and Water River River and Water River River River and Water River River River River and Water River Ri
